A photograph of an industrial facility, likely a refinery, with a large, intense fire burning in the background. In the foreground, a fire truck nozzle is spraying water towards the fire. The scene is set against a clear blue sky. A red banner is overlaid on the left side of the image, and a white box with the Rosenbauer logo is on the right.

Submersible Pump NAUTILUS

The background of the slide is a photograph of industrial machinery, likely a large turbine or engine component, with a complex metal lattice structure and a large circular opening. The lighting is dramatic, with strong highlights and deep shadows, creating a sense of scale and industrial complexity.

Handheld diagnostic device screen showing a software interface for a Citroën vehicle. The screen displays a car diagram with red arrows pointing to various components, including the front suspension and steering system. The interface includes a menu on the left with options like 'Antriebsstrang', 'Lenkung', 'Schwinge', 'Scheinwerfer', and 'Ammortisierstange'. The top right corner shows the date '16.02.2023 14:05' and the text 'Citroën'.

Physical keypad of the handheld diagnostic device. It features a numeric keypad (0-9), function keys (Fn, EA, Menu), and navigation buttons (left and right arrows, up and down arrows). The keypad is black with white and red markings.
